waters of the State of Nevada, as hereinafter st		
tion; if a copartnership or association, give name	s of members.)	
	_	
1. The source of the proposed appropriation i	underground Name of stream, lake of	or other source.
2. The amount of water applied for is	O. 05 One second-foot equals 448.83 gals, per	second-feet
(a) If stored in reservoir give number of acr	e-feet	acre-feet
3. The water to be used for Stock	vater and domestic Irrigation, power, mining, manufacturing, domest	tic, or other use.
4. If use is for:		
(a) Irrigation (state number of acres to be i	rigated)	
(b) Stockwater (state number and kinds of a and yearlings. (c) Other use (describe fully under "No. 1"		
(d) Power:		
(1) Horsepower developed		······
(2) Point of return of water to stream.		
5. The water is to be diverted from its source		
T.13N., R.25E., MDB&M, from	which the southwest co	orner of said Sec-
it should be stated. 6. Place of use SW_4^1 NW_4^1 Section		Rc.M
	legal subdivision, if on unsurveyed land it should	be so stated.
•••••••••••••••••••••••••••••••••••••••		
7. Use will begin about January 1 Day and Month	Day and Month	-
8. Description of proposed works. (Under the	provisions of NRS 535.010 you may be	required to submit plans and
specifications of your diversion or storage w	orks.) well constructed b	y sinking a 65
inch diameter pipe to 7 fee State manner in which water is to be diverted, wheth	t below the bottom of t	he drain, then ditches, flumes, or other conduits.
driving an 18" pipe inside		

	Estimated cost of works \$1,000.00
	Estimated time required to construct works completed
	Estimated time required to complete the application to beneficial use 1 year
	Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

	APPROVAL OF STATE ENGINEER
llc	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the wing limitations and conditions:
	It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch
T he	opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range. The state retains the right to regulate the use of the Federal range. The state retains the right to regulate the use of the Federal range. The state retains the right to require the use of the Federal range. The state retains the right to regulate the use of the use of the Federal range.
